

U. S. Patent Application No.: 09/746,192
Amendment After Allowance
Dated March 7, 2006

Remarks

The present Amendment is being filed to address a minor punctuation informality relative to claim 46. The present Amendment does not add new matter. In that the present Amendment does not alter the claim scope, it should not require an additional search or alter the position of the Patent Office that the claims are allowable. The present Amendment was not presented earlier since the review yielding the determination that the Amendment would be desirable was not completed until after the close of prosecution.

If the Examiner believes that contact with applicants' attorney would be advantageous toward the disposition of this case, the Examiner is herein requested to call applicants' representative at the phone number listed below.

The patent term adjustment listed herein is 403 days. Applicants believe that there will be a reduction of the patent term adjustment for processing of the present amendment after allowance. 37 CFR §1.704 (c)(10).

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to deposit Account No. 50-0289.

Respectfully submitted,
